

Lead the Way to Optimal Talent Management and Organizational Growth

In today's organizations, human resources and talent management are major sources of unrealized value. Business growth, productivity, innovation—all of these can be direct results of putting the right talent in the right place. *Misplaced Talent* is the story of how and why so many organizations fail to capitalize on these opportunities, and it's your guide for unlocking the potential of talent.

With this book, you'll be able to sift through the mountain of assessments, tools, and frameworks out there, separating what works from what doesn't. Author Joe Ungemah is a top thought leader in the world of talent management, known for bringing scientific insights from organizational psychology into the real world.

Praise for *Misplaced Talent*:

"In his book, *Misplaced Talent*, Joe scratches beneath the surface of talent management, encouraging a holistic view of people decisions that are focused on creating impact and value for employees and organizations alike."

—**KIMBERLEY SEVERINSEN**, Head of Assessment and Selection ANZ, Korn Ferry Futurestep

"If we can accurately identify high potential talent, it becomes not only a competitive advantage, but also an engagement, retention, and attraction tool. With Joe as a partner it actually makes it feasible to have a systemic way to differentiate talent and not rely solely on 'gut decisions.' His book is a must read for any HR professional."

—**MILENA GASHKEVICH**, Global Director Talent Attraction, Anheuser-Busch InBev

JOE UNGEMAH helps his clients identify and implement critical transformations in the HR function and has led professional services groups for CEB in the US, Australia, and Ireland. Using his background as a registered psychologist, Joe translates the science behind selection and development decisions into easy to implement actions. He is also a skilled trainer, facilitator, and speaker.
